CUP, CUP AND AWAY!

On our journey to a more sustainable future, we’re proud to have SUCCESSFULLY ELIMINATED PLASTIC CUPS ON BOARD to reduce our impact on the environment—another critical step in helping to keep the places we live & fly beautiful.

CARING FOR THE LONG HAUL.

Alaska is the FIRST U.S. AIRLINE to eliminate plastic cups on board.

By partnering with Boxed Water™ and switching to responsibly-sourced paper cups, we’ve eliminated 2.2M LBS OF PLASTIC cups and bottles.

That includes 55 MILLION PLASTIC CUPS

Equivalent to the weight of 24 BOEING 737s

All inflight beverages on Alaska flights are served in Forest Stewardship Council (FSC) certified paper cups.
